Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 7, 17 and 42 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 7 depends on claim 6 which has been canceled. Claim 17 depends on claim 16 which has been canceled. And finally claim 42 depends on claim 41 which has been canceled.

Claim Objections

Claims 1-4, 7, 10, 11, 13, 14, 17, 20, 22, 38, 39, 42, 45 and 47-61 are objected to because of the following informalities: the present claims use coagulation (stimulation) electrode and coagulation (stimulation) element interchangeably. In order to provide more uniform claim language, appropriate correction is required.

Response to Arguments

Applicant's arguments with respect to claims 1-4, 7, 10, 11, 13, 14, 17, 20, 22, 38, 39, 42, 45 and 47-61 have been considered but are moot in view of the new ground(s) of rejection.

Applicant's amendments necessitated the newly presented 112 2nd rejections and the claim objections. Amendments to the claims which obviate the above noted 112 2nd rejections and the claim objections should do a great deal in moving this case closer to condition for allowance.

Additionally, independent claims 1, 14, 38 and 47 have been amended to include subject regarding the stimulation source (apparatus) and how it provides stimulation energy ranging from 10 mA to 20 mA. This newly recited subject matter in combination with all the other recited subject matter is not anticipated by the prior art or made obvious by a properly motivated combination thereof.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period

Art Unit: 3769

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
